R&D GRANT OPPORTUNITY

ECT-PEI: Clean Technology Challenge

With a 2040 net-zero emissions goal, PEI invites researchers and entrepreneurs to invent, prove, and scale up solutions to reach commercial availability. Join the Emerging Concepts & Technologies (ECT) Research Program and help accelerate the process. **Proposals are due May 1, 2025.**

Priority Research Themes

- Cleantech Implementation in Marine Applications
- Cleantech Implementation in Agricultural Applications
- Grid Modernization
- Battery Development & Long-Term Energy Storage
- Hydrogen as an Alternative Fuel

Program Benefits

- Grants of \$100k
- Atlantic Canadian Networking
- Applicant Guidelines and Templates
- Project Consultations
